

# Get Away From It All at Uchi Lake Lodge ...

Uchi Lake Lodge (sounds like OOCHEE) is the hidden gem of Northwestern Ontario. Our remote lodge provides you with comfortable amenities, high end service and an extraordinary fishing experience. You can catch hundreds of fish without the need of a guide. Walleye and Northerns are found everywhere on the lake, with great spots just a few hundred feet from the lodge (no need to boat for miles to find fish). And best of all, the lake is sheltered so you can be out fishing even on bad weather days.

At Uchi, we recognize the stress and issues that you deal with every day. We want to take you away from all of that. Enjoy breathtaking sunsets and complete solitude knowing we are the only resort on the 12 mile waterway.

Our caring staff will cater to all of your needs. Come in after a day of fishing and share your stories with us. We'll be almost as excited as you are to relive the memories of catching that lunker. Your complete satisfaction is our ultimate goal.

Let us treat you to an amazing  
Canadian Wilderness vacation.  
Make it an Uchi Lake holiday!

# The FUN of Fishing Uchi Lake!!

You've heard the old adage it's not "how", but "how many"! Well, at Uchi it's really the truth. You will catch them on just about anything in your tackle box. It's more of a game to find something you can't catch one on. Most colors are okay too, yellow seeming to be the odds-on favourite.

A medium weight spinning or casting rod is your best bet, 6-8 lb line is perfect. Tie on a jig, spinner or plug and you're set to go!

Conservation was made a number one priority years ago, and today the results are obvious ... 80-100 Walleye per boat per day is the norm, 3-5 lb average. In a nutshell, Uchi Lake is a Walleye fisherman's dream come true.

But Walleye aren't the only fish at Uchi, Northern Pike are wall to wall. You will need to bump your tackle level up a notch or two ... medium to heavy rods with 8-18 lb line is a must, a steel leader is too, unless you want to lighten your tackle box for the trip home! We recommend spoons (Johnson silver or gold), spinner baits, divers, plugs and surface lures as basics to bring the "Uchigators"

up to your boat. In other words, if it's flashy or makes noise it will work, and keep you busy and laughing all day long.

As every fisherman knows, a variety of habitat and structure is crucial to a thriving fishery, that's why Uchi is abound with big walleye and northerns. Uchi is home to numerous islands, weedy bays, fish-funnelling narrows, rocky points and feeder creeks. But that's only what's above the surface. Below you'll discover sharp drop-offs, boulder-strewn underwater islands, expansive flats in 7-15 feet of water ... all in the same day! So whatever your fishing preference, be it trolling, shallow casting, or plumbing those dark, inky depths, Uchi has it all. And if you're one of those fishermen who know the deadly effectiveness of a wiggly minnow, fresh live bait is available every day.

## Uchi Lake is for Moose Hunters too!

If you want to experience the thrill of big game hunting in the Canadian Wilderness, Uchi Lake is for you! Most of our moose are larger than average because the remote area receives no pressure from other hunters. Many of the moose that roam here have never seen a human before. And because we live on the lake for most of the summer, we know just where the big animals are! We offer guided or unguided hunts for archery and rifle season. Call or check out our website for options and pricing. Tags are limited so book early.

**This is an opportunity you do not want to miss!**

## Cottages

Everything about Uchi Lake Lodge was designed for your comfort and enjoyment. Why? Because we want you to come back and see us year after year!

We have 7 main cabins for guests and can accommodate groups as small as 2 or as large as 34. To ensure a good night's rest, we have posturepedic mattresses with fresh linens and bedding supplied.

New in 2020 we added 3 piece washrooms with hot and cold running water, showers and flush toilets to each and every cabin. Starlink internet allows for phone calls and many movie and sports game options in our main lodge.

There is electricity 24/7 with our generator and brand new solar system. All cabins have wood stoves and firewood is topped up daily.

Our well maintained boardwalks connect all the cabins to the main lodge as well as the main dock where the float planes arrive, in case you want to stroll about at midnight watching the aurora borealis, or just to soak up the soothing solitude of the Canadian Wilderness.

## Dining at Uchi Lake Lodge

At Uchi Lake Lodge, all of our American Plan Packages include three home cooked meals each day. All meals are prepared fresh daily with produce and meats that are flown in weekly to ensure that the food we serve is always first rate.

Order anything you like from our breakfast menu, including eggs the way you like them, french toast, hash browns, pancakes, bacon, sausage or ham, while enjoying freshly brewed coffee, tea, orange juice, milk or hot cocoa.

Shore lunch is on the lake each day (weather permitting). Simply pull your boat up, hand our staff your fish, and have a cold beverage while your lunch is being prepared over an open fire. We'll fry fillets, potatoes and beans and top it off with a homemade dessert to get you back on the lake as soon as possible, unless an afternoon nap is more to your liking. We serve three-course meals each evening, starting with a soup or salad, followed by our main course which changes each night. Grilled rib eye, roast turkey, bbq ribs, chicken parmesan, to name a few. Let's not forget dessert – apple pie, brownie, cheesecake, peach cobbler, and much more! And, when you've finished your dinner, grab your hat and jacket and head back out on the lake for the evening fish. Don't forget, it stays light until almost 10 for most of the summer on Uchi!
